Southern
Arizona's Largest
Fixed Wireless
Internet Service
Provider For
Businesses

How We Can Help

Your organization needs to remain agile to respond to changing business needs. With our innovative information and wireless networking solutions we give businesses the ability to meet these needs.

1. Business Internet - Simply Bits offers Southern Arizona's most flexible, scalable and cost-effective Business Internet Service.
2. Hosted VoIP - Get clear digital phone service without any equipment or hassles with Hosted VoIP Service from Simply Bits.
3. Wi-Fi - Simply Bits specializes in custom solutions for unique connectivity locations, from WLAN to Wi-Fi Hotspots.
4. Wide Area Network - Seamlessly connect multiple locations together using the Managed WAN Service from Simply Bits.
5. Hosting - Simply Bits specializes in all forms of web, e-mail and application hosting.
6. Colocation - Retain control over the administration and maintenance of your equipment while minimizing monthly infrastructure costs.
7. Fax to E-Mail - Receive your inbound faxes in your e-mail inbox using our FaxToGo Service.

Simply Bits, LLC, headquartered in Tucson, Arizona is a privately held company committed to creating Southern Arizona's best wired and wireless network for delivery of Internet access, voice, fax, enhanced broadband applications and solutions. This network allows Simply Bits to serve small, medium & large businesses, educational institutions, and government agencies throughout Southern Arizona. Our customer base represents diverse industries including health care, financial services, legal services, insurance and real estate.

Simply Bits provides service to over 1,000 corporate accounts in the largest metropolitan market in Southern Arizona, including the Tucson area, Marana, Green Valley, Vail, Tubac, Rio Rico and Nogales. The company's service area encompasses more than 1,000 square miles and covers more than 50,000 small and medium-sized enterprises (SMEs) in population centers that include more than 1 million households.

Partnerships

Simply Bits maintains partnerships with reputable software and hardware vendors to help achieve complete solutions for our customers. Partners include:

Reliability and Customer Service

All of Simply Bits' services are backed by our unwavering commitment to your total satisfaction. Our services are supported 24x7 by our Network Operations Center in Tucson, while our network is automatically monitored around the clock. We believe it is our job to know about issues and respond proactively, providing our customers with the highest possible reliability.

Business Internet

Simply Bits offers Southern Arizona's most flexible, scalable and cost effective business Internet service. When your business demands high-capacity, mission-critical bandwidth, Simply Bits' broadband solutions deliver unlike any conventional cable-based service. Plus, Simply Bits Business Internet Service can be installed quickly and provides outstanding value.

Hosted Voice over IP (VoIP) Service

Simply Bits maintains and constantly upgrades state-of-the-art, standards-based voice communications technology which allows us to provide a service that is inexpensive, flexible, and feature rich. We eliminate expenses by managing the phone system infrastructure within our cloud-based architecture. This technology gives your company virtual capacity, which means there is no longer a need to provision additional phone lines to increase your capacity. Our system is obsolescence-proof because we manage the system infrastructure for you. Even small companies can have all the benefits and features of an enterprise-class system without the challenges or expenses of owning and maintaining a traditional telephone system.

Wi-Fi Service

Simply Bits is a leading local expert in Wi-Fi services, assisting clients in all phases of Wi-Fi implementation, from design and engineering, through implementation, maintenance and management. Simply Bits has invested in a team of engineers that are skilled in all aspects of Wi-Fi implementation. We combine that experience with the absolute best Wi-Fi equipment the industry has to offer to create solutions that are problem-free and consistently deliver on the promises of Wi-Fi technology. Our Wi-Fi solutions offer maximum benefit to the target audience, without compromising security or performance. Whether you need a Wireless LAN (WLAN) to improve the effectiveness of your employees, or want to offer a Wi-Fi hotspot to your patrons or customers, Simply Bits can provide a superior solution.

Smart!

Wide Area Network

Simply Bits can seamlessly connect your multiple sites or office locations into a logically contiguous network through our Managed WAN Service, dramatically simplifying access to applications and resources across geographic boundaries. We provide the cross-site access you need, without sacrificing security or reliability. Because the service is fully managed, you never have to worry about bandwidth concerns, availability or reliability.

Hosting Solutions

Our hosting services are customized specifically for your business so you can maintain control of your IT infrastructure while off-loading routine, time-consuming administration to our technical experts. You'll gain peak performance and on-demand scalability without the costs typically associated with buying, staffing and maintaining these systems yourself.

Colocation

Building and expanding the facilities that house network architecture can be a major roadblock to your company's success. A streamlined colocation center can clear the way for companies in a variety of industries who are seeking a faster, more economical way to deploy their networks. Simply Bits Colocation Service provides your servers a reliable, secure, constant connection to the Internet through one of the world's finest telecommunication networks, all for one monthly service fee!

Fax To Email

Your customers depend on you for quality products and services. Now you can improve your availability and increase response times

with a fax solution that keeps pace with you. FaxToGo is a unique and convenient fax-to-email service that gives you a personal, local phone number to which anyone in the world can send faxes anytime day or night.
